

MODULE VII CORRECTIVE ACTION FOR SOLID WASTE MANAGEMENT UNITS SCHEDULE OF COMPLIANCE

VII.A. SOLID WASTE MANAGEMENT UNITS

The Permittee shall conduct corrective action, in accordance with Module VII, for each Solid Waste Management Unit specified in Tables VII-2.

VII.A.1 The Executive Secretary may require the Permittee to add additional Solid Waste Management Units to those listed in Tables VII-1, and VII-2, based on additional information received by the Permittee, the Executive Secretary, or any other knowledgeable source.

VII.B. STANDARD CONDITIONS

VII.B.1. Failure to submit the information required by Module VII or falsification of any submitted information, is grounds for termination of this permit in accordance with R315-3-4.

VII.B.2. The Permittee shall sign and certify all plans, reports, notifications, and other submissions to the Executive Secretary in accordance with Condition I.G.

VII.B.3. The Permittee shall submit a minimum of two copies of each plan, report, notification, or other submissions required by Module VII, to the Executive Secretary.

VII.B.4. Upon written approval from the Executive Secretary, all plans and schedules required by the conditions in Module VII, shall be incorporated into Module VII of this permit in accordance with Condition VII.I. Any noncompliance with such approved plans and schedules shall be deemed noncompliance with this permit.

VII.B.5. If the Executive Secretary determines that further actions beyond those required by Module VII are warranted, the Permittee shall modify Module VII in accordance with Condition VII.I.

VII.B.6. All raw data, such as laboratory reports, drilling logs, bench-scale or pilot-scale data, and other supporting information gathered or generated during activities undertaken pursuant to conditions in Module VII shall be maintained in accordance with Condition I.F.13.d. during the effective term of this permit.

VII.C. NOTIFICATION REQUIREMENTS FOR AND ASSESSMENT OF NEWLY-IDENTIFIED SOLID WASTE MANAGEMENT UNITS

VII.C.1. The Permittee shall notify the Executive Secretary in writing, of any newly identified SWMU(s) not identified in Condition VII.A., within 30 days of discovering the SWMU(s). The notification shall include the location of the new SWMU(s) and

information on the suspected or known wastes at the site. New SWMUs shall be incorporated into the permit according to Condition I.D.

VII.C.2. Within 150 days following discovery of the SWMU(s), the Permittee shall submit a SWMU Assessment Plan to the Executive Secretary.

VII.C.3. The SWMU Assessment Plan shall include:

VII.C.3.a. A description of past and present operations at the unit(s); and

VII.C.3.b. Any groundwater, surface water, soil (surface or subsurface strata), or air sampling and analysis data needed to determine whether a release of hazardous waste or hazardous waste constituents from such units is likely to occur. The SWMU Plan shall demonstrate that the sampling and analysis program, if applicable, is capable of yielding representative samples and shall include parameters sufficient to identify migration of hazardous waste or hazardous waste constituents, or both, from the newly discovered SWMUs to the environment.

VII.C.4. The SWMU Assessment Plan shall be evaluated by the Executive Secretary and;

VII.C.4.a. The Permittee shall receive written approval from the Executive Secretary for the SWMU Assessment Plan; or

VII.C.4.b. The Permittee shall receive written notice from the Executive Secretary of the SWMU Assessment Plan's deficiencies and the written notice will specify a due date for submittal of a revised assessment plan; or

VII.C.4.c. The Permittee shall receive written notice from the Executive Secretary of the revisions incorporated by the Executive Secretary in the SWMU Assessment Plan. The revised Assessment Plan shall become the approved SWMU Assessment Plan.

VII.C.5. The approved SWMU Assessment Plan shall be incorporated within Module VII in accordance with Condition VII.I. The Permittee shall be notified in writing of the revisions to the SWMU Assessment Plan. The Executive Secretary may require the Permittee to conduct new or more extensive assessments, investigations, or studies, as needed.

VII.C.6. The SWMU Assessment Plan shall contain a schedule for a SWMU Assessment Report including the date the report will be submitted to the Executive Secretary.

VII.C.7. The Permittee shall implement the approved SWMU Assessment Plan within 30 days of approval or revision by the Executive Secretary.

VII.C.8. The SWMU Assessment Report shall describe all results obtained from the implementation of the approved SWMU Assessment Plan. For each newly identified SWMU, the report shall provide:

VII.C.8.a. The SWMU location, identified on a map;

VII.C.8.b. The type and function of the unit, including general dimensions and a structural description;

VII.C.8.c. The period during which the unit was operated; and

VII.C.8.d. A list of all wastes managed at the SWMU and results of all sampling and analysis used to determine whether releases of hazardous wastes and/or hazardous waste constituents have occurred, are occurring, or are likely to occur from the unit.

VII.C.9. Based on the results of SWMU Assessment Report, the Executive Secretary shall determine the need for further investigations at specific units included in the SWMU Assessment. If the Executive Secretary determines that such investigations are needed, the Executive Secretary may require the Permittee to prepare a plan for such investigations. This plan shall be reviewed for approval as part of the RCRA Facility Investigation Workplan under Condition VII.D.

VII.C.10. Within 30 days of discovery, the Permittee shall notify the Executive Secretary in writing, of any release(s) of hazardous waste or hazardous waste constituents, or both, discovered during the course of groundwater monitoring, field investigation, environmental auditing, or other activities undertaken during the RCRA Facility Investigation. Such releases may be from already documented or newly identified units. The Executive Secretary may require further investigation of the new releases. A plan for such investigation will be reviewed for approval as part of the RCRA Facility Investigation Workplan under Condition VII.D.

VII.D. RCRA FACILITY INVESTIGATION (RFI)

VII.D.1. The Permittee shall conduct a RFI to determine the nature and extent of known and suspected releases of hazardous wastes or hazardous waste constituents, or both, from each SWMU at the Facility and to gather data to support the Corrective Measures Study. The Permittee shall conduct the RFI in accordance with the requirements specified in Volume I, Appendix A.

VII.D.1.a. The Permittee shall conduct an RFI-Phase I, in accordance with Appendix A, Task I.D, for each SWMU in which a release of hazardous waste or hazardous waste constituents has been documented, as specified in Table VII-2.

VII.D.1.a.i. The Permittee shall prepare and submit the RFI, Task I Report, as specified in Volume I, Appendix A, for each SWMU in which a release of hazardous waste or hazardous waste constituents has been documented.

VII.D.1.a.ii. The Permittee shall evaluate the RFI-Phase I Report and identify SWMUs that require additional investigation under the RFI Phase II (Task II and Task III). Based on the data collected in the RFI-Phase I, the Permittee shall prioritize each SWMU identified for additional investigation according to the SWMU's threat to human health or the environment. Based on the classification of the SWMU(s), the Permittee shall recommend a RFI schedule for the investigation of each SWMU's potential or imminent threat to human health or the environment.

VII.D.1.a.iii. The Permittee may request that the Executive Secretary modify the RFI schedules, specified in Tables VII-3 and VII-4, pursuant to permit conditions VII.I.1. and VII.I.3., to allow additional investigations under the RFI-Phase II (Task II and Task III) to be conducted according to the prioritization of the SWMUs, in accordance with Condition VII.D.1.a.ii.

VII.D.1.b. The Permittee shall conduct the RFI for the SWMUs specified in Table VII-2 in accordance with the schedule specified in Table VII-3.

VII.D.1.c. The Permittee shall conduct the RFI for the SWMUs specified in Table VII-2 in accordance with the schedule specified in Table VII-4.

VII.D.1.d. The RFI compliance schedules specified in Tables VII-4 and VII-5, may be modified in accordance with Condition VII.I.

VII.E. INTERIM MEASURES

VII.E.1. If, during the course of any activity initiated in compliance with the permit conditions of Module VII of this permit, the Executive Secretary or the Permittee determines that a release or potential release of hazardous waste or hazardous waste constituents from a SWMU poses a threat to human health and the environment, the Permittee shall be required to perform specific interim measures.

VII.E.2. If the Executive Secretary or the Permittee determines the need for interim measures, the Permittee shall submit for approval by the Executive Secretary an Interim Measures Plan. The Interim Measures Plan shall identify specific actions to be taken to implement the interim measures and a schedule for implementing the required measures. The Interim Measures Plan shall be incorporated into this permit. The Interim Measures Plan shall include, at a minimum, the following:

VII.E.2.a. Within 30 days of receiving the written notification requiring the Interim Measures Plan as specified in VII.E.2., the Permittee shall provide the Interim Measures Plan to the Executive Secretary for approval.

VII.E.2.b. Objectives of the interim measures shall include how the measure is mitigating a potential threat to human health and the environment, how it is consistent with and integrated into any long term remedy at the TEAD, or both;

VII.E.2.c. Data collection quality assurance and data management information;

VII.E.2.d. Design plans and specifications, construction requirements, operation and maintenance requirements, project schedules, and final design documents;

VII.E.2.e. Construction quality assurance objectives, inspection activities, sampling requirements, and documentation; and

VII.E.2.f. Schedule for submittal of the following reports; progress reports, final design documents, draft interim measures report, and final interim measures report.

VII.E.3. In determining whether an interim measure is required, the Executive Secretary shall consider the following:

VII.E.3.a. Time required to develop and implement an interim remedy:

VII.E.3.b. Actual and potential exposure of human and environmental receptors;

VII.E.3.c. Actual and potential contamination of drinking water supplies and sensitive ecosystems;

VII.E.3.d. The potential for further degradation of the medium without interim measures;

VII.E.3.e. Presence of hazardous waste that may pose a threat of release;

VII.E.3.f. Presence and concentration of hazardous waste including hazardous waste constituents in soils that have the potential to migrate to groundwater or surface water.

VII.E.3.g. Weather conditions that may affect the current levels of contamination;

VII.E.3.h. Risks of fire, explosion, or accident; and

VII.E.3.i. Other situations that may pose threats to human health and the environment.

VII.F DETERMINATION OF NO FURTHER ACTIONS

VII.F.1. Based on the results of the RFI, the Permittee may petition the Executive Secretary to approve a determination of no further action (NFA) for any of the SWMUs listed in Table VII-2.

VII.F.2. The NFA petition shall contain information based on the RFI that demonstrates that there are no releases of hazardous waste or hazardous waste constituents from the SWMU(s) or any releases are below background levels or below risk levels as identified in R315-101.

VII.F.3. A NFA determination in accordance with Condition VII.F.1., shall not preclude the Executive Secretary from requiring further investigations, studies, or remediation at a later date if new information or subsequent analysis indicates a release or potential of a release from a SWMU. In such a case, the Executive Secretary shall rescind the NFA determination and the Permittee shall modify the Corrective Action Schedule of Compliance (Module VII).

VII.G. CORRECTIVE MEASURES STUDY (CMS) AND IMPLEMENTATION (CMI)

VII.G.1. Based on the results of the RFI, the Permittee shall conduct the CMS in accordance with the requirements specified in Appendix B (Task I -VI). The CMS shall describe the alternatives for treatment or other remediation of the contamination. The CMS shall be submitted to the Executive Secretary for approval.

VII.G.2. Upon the Executive Secretary's approval of the CMS, the Permittee shall submit, as indicated in Table VII-5, to the Executive Secretary for approval, the CMI Plan, specified in Volume I, Appendix B, Task V.A.

VII.G.3. Upon the Executive Secretary's approval of the CMI Plan, the Permittee shall implement the CMI Plan specified in Appendix B, Task IV [the corrective measures design (Task IV.B.) and begin the construction of the corrective measures (Task IV.C.)].

VII.G.4. The Permittee shall conduct the CMS and prepare the CMI Plan, as specified in Conditions VII.G.1. and VII.G.2., according to the schedule specified in Table VII-5.

VII.G.5. The CMS and CMI Plan compliance schedules, specified in Table VII-5, may be modified in accordance with Condition VII.I.

VII.H. REPORTING REQUIREMENTS

VII.H.1. The Permittee shall present quarterly progress reports as part of the Technical Review Committee/Restoration Advisory Board of all activities conducted pursuant to the Conditions of Module VII.

VII.H.2. The quarterly progress reports shall contain, at a minimum:

VII.H.2.a. A description of the work completed;

VII.H.2.b. Summaries of all findings and all raw data;

VII.H.2.c. Summaries of all problems encountered during the reporting period and actions taken or to be taken to rectify problems; and

VII.H.2.d. Projected work for the next reporting period.

VII.I. MODIFICATION OF THE CORRECTIVE ACTION SCHEDULE OF COMPLIANCE (MODULE VII)

VII.I.1. A request for modifications of the final compliance dates pursuant to the permit conditions in Module VII shall be submitted to the Executive Secretary for approval. Final compliance dates in the Corrective Action Schedule of Compliance include:

VII.I.1.a. The compliance date(s), as specified in Tables VII-3 and VII-4, for submittal of the RFI Final Report (Appendix A, Task IV);

VII.I.1.b. The compliance date(s), specified in Table VII-5, for submittal of the CMS Report, in accordance with Condition I.G.1.;

VII.I.1.c. The compliance date(s), as specified in Table VII-5, for submittal of the final CMI Plan, in accordance with Condition VII.G.2.;

VII.I.1.d. Once established in accordance with Condition VII.G.5., the compliance date(s) for submittal of the as-built corrective measures final design and construction plans, in accordance with Condition VII.G.3.;

VII.I.1.e. Compliance dates specified in Tables VII-3, VII-4, and VII-5, for implementing the approved plans and reports; and

VII.I.2. The compliance schedules specified in Tables VII-4 and VII-5, may be modified in accordance with permit modification requirements as specified in Module I.D., if the Executive Secretary determines that good cause exists.

VII.I.2.a. Failure to receive adequate funds which were requested to conduct the CMI Plan, pursuant to Condition VII.G.3., shall be considered good cause for modification of the compliance schedule(s), Table VII-5, as specified in Condition VII.I.2.

VII.I.2.a.i. The Permittee shall use its best effort to secure all funds that may be required for implementation of the requirements specified in Condition VII.G.3. of this permit pursuant to the compliance schedule in Table VII-5;

VII.I.2.a.ii. The Permittee shall maintain and submit to its Major Command on an annual basis a budget for funding required to achieve the compliance schedule in Table VII-5. This budget will include all future funding requirements for design, construction, operations, maintenance, and monitoring as required for each site addressed by this permit. The budget will be maintained using the best available cost estimates developed under Task II of Appendix B to this permit.

VII.I.2.a.iii. Immediately upon failure to obtain adequate funding, the Permittee shall submit to the Executive Secretary a written request and justification, for modification of the compliance schedule specified in Table VII-5. The written justification shall

demonstrate that good cause exists, pursuant to Condition VII.2.a. The Permittee shall document in the justification its efforts to obtain adequate funding. The Permittee shall also provide an alternate schedule of compliance for conducting the CMI for the subsequent fiscal year.

VII.I.2.b. For any approved modification, the compliance schedule specified in Table VII-5 shall be modified to provide relief from the original compliance schedule timeframes only for the subsequent fiscal year. All successive compliance dates after the end of such fiscal year shall be modified to reflect the original timeframes specified prior to the modification request under Condition VII.I.2.a.

VII.I.2.c. Failure to obtain adequate funds or appropriations from Congress shall not in any way release the Permittee from its obligation to comply with the CMI (Condition VII.G.3.) or any other requirement of this permit.

VII.I.2.d. If adequate funds for CMI are not available, the Executive Secretary and the Board reserve the right to pursue any actions deemed necessary to protect human health and the environment, not excluding judicial recourse or termination of this permit.

VII.I.3. The Permittee may submit a request for modifications of the interim compliance dates that do not affect the final compliance dates to the Executive Secretary for approval. If the Executive Secretary approves the interim compliance date modifications, Tables VII-3, VII-4, and VII-5 shall incorporate the modified compliance dates as approved and such change shall not be considered a permit modification.
